As a fitting commentary on the President's intimation 'that the southern States may, in framing new constitutions, violate the pledges under which they were realimitted to the Union, it is timely to quote the language of Mr. Poland in his report, when he says: "The new Constitution they regard as republican in form, and in many respects an aprovement on the Constitution of 1868." is stated by citizens of Arkansas here that every guarantee in the reconstruction Conatton is reaffirmed in the new Constitua, and that in some respects- the school ature for instance-it is more favorable to colored element. Another noticeable feature in this exhibit is that while the number of failures exceeds that of last year, there is marked dimipution in the amount of liabilities. There are two causes for this-namely, the panic, which involved an unusual number of large houses, and during 1874 the volume of business was greatly diminished. The largest number of failures was in New York city, 645; in the State of Pennsylvania there were 644. The liabilities in New York city were \$32,590,000, and in Pennsylvania \$34,774.-000. The least number was in Vermont, 36.
